

# PTC CREO

**PTC Creo - Studio have 2 licenses of Creo (CAD software)**

We have the **Design Premium Package** with some additional modules with an incubator license.

S.No.	Select Your Package	Design Premium
1	Industry-Standard 3D CAD Capabilities**	TRUE
2	Augmented Reality Design Visualization	TRUE
3	Top-Down Design & Concurrent Engineering	TRUE
4	Prismatic & Multi-Surface Milling	TRUE
5	Advanced Surfacing & Additive Manufacturing	TRUE
6	GD&T & Tolerance Analysis	TRUE
7	Mold Design & Mold Machining	TRUE
8	Extended Collaboration	TRUE
9	PTC Mathcad	TRUE
10	Simulation, Basic CFD, & Fatigue Advisor	TRUE
11	Production Machining	TRUE

# PTC DEPLOYMENT STRATEGY :

## USES:

- Product Design: 3D core modeling
  - Sensor modeling
  - Generative design for weight/design optimization
  - Quick simulation as you design
  - Design for additive manufacturing
- Design Review & Collaboration: Augmented Reality (AR)
  - AR for quick design review and collaboration
- Smart and connected product Design
  - *Visualization dashboards for proto monitoring*
  - *Performance analysis*
  - *Anomaly detection*
- Real time Validation
  - Digital TWIN for real data validation
  - Corrective actions for design improvements

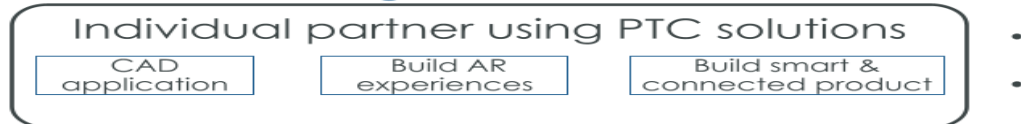

# EXECUTION MODEL:

## EXECUTION MODEL

### Level 1 - Discovery

### Level 2 - On boarding

### Level 3 - Sustainability

# PROGRAM OFFERING:
